INTRODUCTION

Most business owners wait until the last minute to gather documents for funding applications. This scramble leads to incomplete submissions, delayed approvals, and missed opportunities.

The Business Funding Document Prep Kit changes everything. This comprehensive system helps you organize every document lenders will ever need so when funding opportunities arise, you're ready to move fast and look professional.

Why Choose Professional Edition?

The Professional Edition gives you everything you need to not just prepare documents, but to present them in the most compelling way possible. The editable templates allow you to update documents quickly, the fillable forms make digital completion easy, and the advanced worksheets help you understand exactly what lenders are looking for.

Additionally, the Professional Edition includes lender communication templates and scripts that help you follow up professionally, maintain relationships, and increase your approval chances.

SECTION 2: BANK STATEMENT PREP SHEET

How to Organize and Present Your Business Bank Statements

What Lenders Are Actually Looking For

When a lender reviews your bank statements, they're evaluating five key factors:

1. Average Daily Balance

This is the average amount of money in your account over the statement period. Lenders calculate this by adding up each day's balance and dividing by the number of days.

What they're looking for: Higher average balances suggest financial stability. They want to see balances that would cover your proposed monthly loan payment multiple times over.

Pro tip: Review your last 12 months of statements and note any months where the average balance dropped significantly. Be prepared to explain these periods.

2. Cash Flow Consistency

Lenders analyze the patterns in your deposits. Consistent, regular deposits from customers suggest reliable revenue. Highly variable deposits raise concerns about income stability.

What they're looking for: Predictable deposit patterns that match your described business model.

Pro tip: Create a deposit pattern analysis showing lenders what "normal" looks like for your business.

3. Expense Management

Lenders look at how you manage expenses. Large, unusual withdrawals or consistent overspending can signal poor financial management.

Pro tip: Categorize your major expenses on a separate sheet. When you can explain where money goes, you look more competent.

4. Balance Trends

The overall direction of your balances matters. Growing balances suggest a healthy, profitable business. Declining balances raise concerns.

Pro tip: Calculate your month-over-month balance change. If you've grown by \$5,000 over the year, highlight this.

5. Red Flags

Lenders train themselves to spot warning signs. Overdrafts, large unexplained transfers, or suspicious activity can kill your application.

Pro tip: If you see red flags in your history, address them proactively. Explain what happened and what you changed.

Step-by-Step Preparation Process

Step 1: Gather Complete Statements

Required: Last 12 months of business checking account statements

Preferred format: Official PDFs downloaded directly from your bank

What to include:

- All pages of each statement (statements often span multiple pages)
- Any notices or disclosures included with statements
- Overdraft notices or fee disclosures

What NOT to include:

- Personal bank accounts (keep separate)
- Statements from closed accounts (include separately if requested)
- Screenshots or photos of statements

Step 2: Create a Statement Summary

For each month, record these key metrics:

Month	Beginning Balance	Ending Balance	Total Deposits	# of Deposits	Largest Deposit	Total Withdrawals	# of Withdrawals
Jan			\$				
Feb			\$				
Mar			\$				
Apr			\$				
May			\$				
Jun			\$				
Jul			\$				
Aug			\$				
Sep			\$				
Oct			\$				
Nov			\$				
Dec			\$				

Step 3: Calculate Your Average Monthly Balance

Formula: (Sum of all daily balances) ÷ (Number of days in period)

Or simplified: (Beginning balance + Ending balance) ÷ 2 for each month, then average all months

Example:

- January: Beginning 15,000, Ending 18,000 → Average: \$16,500
- February: Beginning 18,000, Ending 17,000 → Average: \$17,500

- March: Beginning 17,000, Ending 22,000 → Average: \$19,500

12-Month Average: \$17,833

Use this calculation: If your average monthly balance is 17,833 and your proposed loan payment would be 1,200/month, your balance covers the payment nearly 15 times. This demonstrates strong repayment capacity.

Step 4: Create Deposit Pattern Analysis

Document where your deposits come from:

Deposit Source	Monthly Amount	% of Total	Pattern
Customer A (recurring contract)	\$	%	Monthly
Customer B (invoices)	\$	%	Bi-weekly
E-commerce sales	\$	%	Weekly
Retail sales	\$	%	Daily
Other	\$	%	

Key Insight: If one customer represents more than 30% of your deposits, note this concentration risk. Lenders worry about over-reliance on single customers.

Step 5: Create Explanatory Notes

For any unusual items, prepare explanations:

Large Single Deposits:

- Date: _____
- Amount: \$ _____
- Source: _____
- Explanation: _____

Large Withdrawals:

- Date: _____
- Amount: \$ _____
- Purpose: _____
- Explanation: _____

Low Balance Periods:

- Month: _____
- Balance: \$ _____
- Cause: _____
- Resolution: _____

Step 6: Assemble Your Package

Organize in this order:

- 1. Cover page with account summary
 - 2. 12-month statement summary table
 - 3. Average balance calculations
 - 4. Deposit pattern analysis
 - 5. Explanatory notes (if needed)
 - 6. Individual statements (most recent first)
-

Script 4: Request for Feedback (After Denial)

Subject: Request for Application Feedback - [Company Name]

Body:

Dear [Lender Name],

Thank you for reviewing our application. While I understand the decision was not in our favor this time, I would greatly appreciate any feedback you could provide.

Understanding the specific factors that influenced the decision would help us strengthen our application for future opportunities. We'll take your feedback seriously and use it to improve our financial position and documentation.

If you're able to share the primary reasons for the decision, we would be grateful. Even general feedback would be helpful as we work to position our business for future funding success.

Thank you for your time and consideration.

Best regards,

[Your Name]

Script 5: Building Long-Term Relationships

Subject: Staying Connected - [Company Name]

Body:

Dear [Lender Name],

Thank you for the opportunity to apply for funding. Even though our timelines may not align right now, I'd like to stay connected.

As our business continues to grow, we'll be revisiting our funding needs periodically. When the time is right, we'd love to work with [Lender] again.

Would it be appropriate to stay in touch? I'm happy to provide quarterly updates on our business performance and look forward to the possibility of future collaboration.

Thank you for your time.

Best regards,
